

A Line AB 25mm is parallel to the VP and perpendicular to the HP. Point A is 35mm above the HP and 20mm in front of the VP. B is 10 mm above the HP. Draw its projections and traces.

Front View (a' to b') is a vertical blue line, showing the height difference (35 mm to 10 mm above HP).

Top View (a and b) is a single green point, since the line is perpendicular to HP and only one position is seen in plan view.

Horizontal Trace (H.T.) is marked at the intersection with the XY line, since the line meets HP.
